

# Project Management

*To be added on to a Strategy Intensive*

Starting at \$3,000 / month\* (CAD)

\*Payment plan available

## Congratulations!

After working together through a 30-Day or 90-Day Strategy Intensive, you now have a detailed plan(s) and are well on your way to making things happen in your business or organization.

## But... what if you:

- don't have any team members available to keep things moving forward according to the plan(s)?
- need someone with the knowledge or resources to lead a project and keep things on track?
- want to provide guidance for team members who are interested in developing their knowledge and ability to lead projects?

**Then this retainer-based service is for you!**

As your Project Manager, I will take the lead on:

- communicating with all team members to manage project workflow (ex. monitoring costs, timelines, resources, etc.)
- troubleshooting
- status meetings
- project reporting and communicating with stakeholders (as needed)
- retrospective review to formally close the project

Finally, we'll celebrate the results we achieved to turn your big idea(s) into reality!
